Unfortunately, most of us are all too familiar with recent accounts of serious personal information data breaches.

These breaches have exposed the sensitive, personal information of millions of people, leaving them vulnerable to Identity Theft. Your name, address, Social Security number, birth date, driver's license, bank accounts and credit card numbers could be at risk. These serious breaches can span months before being detected. This makes it more important than ever that you take proactive measures to protect your information. As our valued customer, TXN Bank has some tools and tips to help you protect your identity as well as information on what you should do in the event you ever fall victim to identity theft.

HOW CAN TXN HELP YOU PREVENT IDENTITY THEFT?

Monitor your accounts closely and minimize risk with electronic services. TXN Bank has a 24-hour toll-free phone banking system, online banking, mobile banking, card control and text alerts, which are all available free of charge to any TXN Bank customer.

E-Statements: Fraud can happen as close to home as your own mailbox. Minimize your risk by receiving your monthly statements securely and electronically via the TXN Bank Online Banking platform. Don't risk your information being lost or stolen in the mail.

Online Banking and Mobile Banking: Monitor your TXN Bank accounts from anywhere at any time with online banking and the TXN Bank mobile app. Check balances, make transfers, set up balance alerts, bill payments and even see your monthly statements from the convenience of your home computer, smartphone or tablet.

Toll Free Phone Banking: Call our 24-hour banking line at 830.426.8522 or 877.979.2626 to monitor account balances and other account information at your convenience.

Debit Card Control: Your debit card is under YOUR control. Access card management from the mobile application. Block your card, report your card lost or stolen and even set limits and restrictions to your card from the convenience of your TXN Bank Mobile app.

Call the Credit Bureaus to report an Issue:
Equifax: 1800-525-6285
Experian: 1888-397-3742
TransUnion: 1800-680-7289

Debit Card Fraud Monitoring: TXN Bank provides fraud detection and alert services when activity doesn't appear normal on your debit card. This program is designed to alert customers by calling them directly in the event that something appears fraudulent on their TXN Bank Debit Card. If the fraud center is unable to contact the customer, the cardholder's card will be suspended until the customer contacts the bank or the fraud center directly to verify the validity of the transaction. Always make sure TXN Bank has the most up to date contact information for you to avoid missing a call from the fraud center.

If you feel your debit card has been lost, stolen or compromised
CALL TXN Bank's hotline at
800-472-3272
